

# Vision benefits for every set of eyes

Enroll with Aetna Vision<sup>SM</sup> Preferred for more convenience, choice and savings

# Does your eyesight need help?

With Aetna Vision<sup>SM</sup> Preferred, you have the power to get exactly what you want from your vision plan — convenience, choice and savings.

## THE VISION NETWORK YOU WANT

You have the flexibility to choose from the right mix of independent, national retail and regional retail providers. Plus, we offer online, in-network options. Finding a vision provider is easy. Scan the QR code or visit [AetnaVision.com](https://AetnaVision.com).

## A MORE CONVENIENT EXPERIENCE

Our member website gives you access to benefit details, claims, provider locations and more. And, since many providers offer extended evening and weekend hours, you can get care when it works for you.

## CHOICES THAT FIT YOUR STYLE

You can choose nearly any frame, lens or contact lens — including frames from popular designer brands such as Armani, Coach, Ray-Ban, DKNY and more.\*

## AMAZING SAVINGS

You'll get even more savings with up to 40% off additional complete pairs of eyeglasses; up to 20% off non-prescription sunglasses; and up to 15% off standard prices on laser vision correction.\*

## ANSWERS WHEN YOU NEED THEM

You'll have access to one of America's highest-rated and award-winning customer call centers.\*

# Think you don't need vision care?

Think again. Your eyes are windows to your soul. They're also portals to your health. Some health problems may show signs through your eyes — signs you don't want to miss.

## SPOT HEALTH PROBLEMS SOONER

An eye exam can spot early signs of diabetes, high blood pressure, high cholesterol and heart disease.\* Not to mention cataracts and glaucoma. See it sooner. Treat it sooner.

## DON'T LIVE WITH EYE STRAIN

Every day, we spend hours staring at phones, laptops and tablets. All this exposure can put strain on our eyes and may be linked to blurred vision, dry eye and headaches.\*

## AVOID VISION CREEP

Your eyes are always changing (you probably don't even notice it). Our network doctors can track even the slightest changes with the latest in digital exam technology and retinal imaging. Designed for your comfort. Fine-tuned for precision.

## SOAK UP THE SUN — SAFELY

UV rays can cause cataracts, macular degeneration, vision loss and eye sunburn. Even in winter. Sunglasses can easily block 99% of these rays.\*
